

Training Manual

Central Board for Workers Education,

PREFACE

The Central Board for Workers Education, since its inception in 1958, has been organizing a variety of training programmes for the workforce in organized, unorganized and rural sectors. Guidelines and instructions are being issued from time to time with regard to norms to be followed in organizing the programmes, expenditure pattern, number of participants, target groups etc. The Board having its wide network throughout the length and breadth of the country, such guidelines/instructions are aimed at ensuring uniformity in the procedures being adopted. However, it has been observed that many variations do take place. Some of the reasons for the variations are lack of clarity in understanding the meanings/concepts, differing interpretations by the field officers, diverse field conditions and so on.

After a number of interactions with officers at various fora, the Board had brought out the comprehensive manual with all related aspects in it so that uniformity in practices is achieved.

Since publication of this manual in May 2004, lot of changes has taken place and hence it was decided to bring out the updated version of this manual so that there should not remain any room for confusion

I hope that this updated Manual will be helpful to all Education Officers and Regional Directors and also to other Officers/staff of the Board in maintaining uniformity in conducting the training programmes.
